

REPLACEMENT SHAFT KITS

For ALL Manufacturers' Evaporative Cooling Equipment

Solid Shaft Kit

Tubular Shaft Kit

Complete Kit

EVAPCO's shaft replacement kit includes all the necessary components and instructions for repairs in one shipment!

Quick Shipment

Shaft kits are available for quick shipment, eliminating costly delays!

Quality Custom Design

EVAPCO can supply shaft kits for other manufacturer's equipment. All shaft kits for non-EVAPCO equipment come with a 2 year replacement parts warranty!

Quality Components

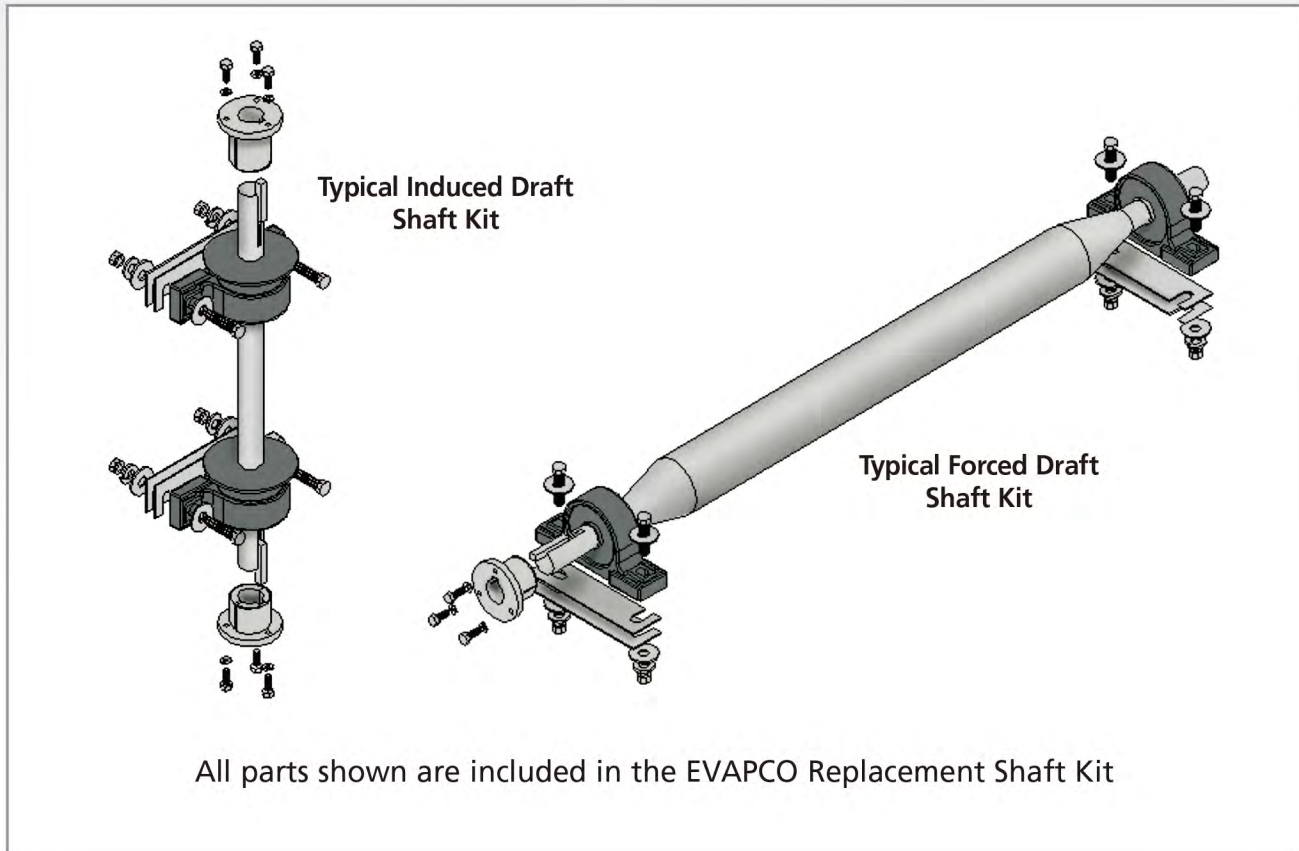

- All EVAPCO heavy duty, self aligning bearings are "Cooling Tower Rated" to have an L10 life of 75,000 Hours.
- EVAPCO's tubular shafts are constructed with superior forged steel journals compared to other manufacturer's welded steel tubular shaft.
- EVAPCO's tubular shafts are factory balanced to compensate for static/dynamic unbalances.
